

J Series One-Circuit Track System

Surface Mounted Tracks

Product Description

The WAC single circuit J track system is used in conjunction with single circuit track lighting fixtures and is composed of high-purity aluminum extruded material. It can be cut on site, installed easily, and has a variety of accessories and functions. It can be installed on various ceiling structures such as gypsum, wood, or aluminum suspended ceilings.

Product characteristics

- Aluminum extruded structure with copper busbar inside.
- The track can be cut on site and installed easily. Can be installed on the ceiling or suspended.
(refer to suspension accessories for details)
- Rated current 16Amps, voltage 220V.
- Conductive joints can be energized from the end of the track, at the junction of two tracks, or at any position.
- Colors are available in black and white.

J series connector

Model	Description	Finish	Length	Width	Height	Weight	
		BK	WT				
JT1M	1M Single circuit track	.	.	1000mm	36mm	17mm	0.56kg
JT2M	2M Single circuit track	.	.	2000mm	36mm	17mm	1.09kg
JT3M	3M Single circuit track	.	.	3000mm	36mm	17mm	1.62kg

Example: JT1M-WT-C

Includes two tail covers.

J Series One-Circuit Track System

Surface Mounted Tracks

JI-PWR

Model	Finish		Weight
	BK	WT	
JI-PWR	.	.	0.09kg

Example: JI-PWR-WT-C

Realize conductivity at the straight connection between two tracks.

JL-LEFT

Model	Finish		Weight
	BK	WT	
JL-LEFT	.	.	0.09kg

Example: JL-LEFT-BK-C

Connect the two tracks at a 90 ° angle, conducting electricity.

JL-RIGHT

Model	Finish		Weight
	BK	WT	
JL-RIGHT	.	.	0.09kg

Example: JL-RIGHT-BK-C

Connect the two tracks at a 90 ° angle to conduct electricity.

JLE

Model	Finish		Weight
	BK	WT	
JLE	.	.	0.06kg

Example: JLE-BK-C

Feed electricity directly from the ceiling to the track.

JI

Model	Finish		Weight
	BK	WT	
JI	.	.	0.02kg

Example: JI-BK-C

Connect the two tracks in a straight line and conduct electricity

JBXLE

Model	Finish		Weight
	BK	WT	
JBXLE	.	.	0.15kg

Example: JBXLE-WT-C

The incoming connector can be used in conjunction with BX or Romex boxes for surface installation, providing a connection method for incoming lines from the ceiling.

J Series One-Circuit Track System

Surface Mounted Tracks

WAC

JT

Model	Finish		Weight
	BK	WT	
JT	.	.	0.14kg

Example: JT-BK-C

Used to connect three tracks to form a T-shaped structure.

JX

Model	Finish		Weight
	BK	WT	
JX	.	.	0.18kg

Example: JX-BK

Used to connect four tracks to form an X-shaped structure.

JFLX

Model	Finish		Weight
	BK	WT	
JFLX	.	.	0.16kg

Example: JFLX-BK-C

Connect two sections of track, with an angle between the two ends of the joint ranging from 60 ° to 180 °. It can serve as a transition connection point for wall to wall, wall to ceiling, or ceiling to ceiling. It can also be used as a power inlet.

JI-DEC

Model	Finish		Weight
	BK	WT	
JI-DEC	.	.	0.02kg

Example: JI-DEC-BK

Connect the two sections of the track in a straight line and do not conduct electricity.

JMP

Model	Finish		Weight
	BK	WT	
JMP	.	.	0.15kg

Example: JMP-BK-C

A single point installation suction cup can be used to connect a single J rail lamp head. When this suction cup is used for low-voltage rail lamp heads, the transformer box will protrude from the surface of the suction cup.

JFC

Model	Finish		Weight
	BK	WT	
JFC	.	.	0.11kg

Example: JFC-WT-C

Can connect 2 junction boxes. Capable of supplying power at any position on the track

J Series One-Circuit Track System

Surface Mounted Tracks

WAC

SK05

Model	Finish		Weight
	BK	WT	
SK05	.	.	0.02kg

Example: SK05-BK

The suspension rod fixing ring is used to fix the suspension rod when it is cut.

RI

Model	Finish		Weight
	BK	WT	
RI	.	.	0.01kg

Example: RI-BK

Extension rod connection accessory, used to connect two track suspension rods to meet the demand for longer track suspension heights.

EN-JQ50AR

Model	Finish		Weight
	BK	WT	
EN-JQ50AR	.	.	0.13kg
DEN-JQ50AR	.	.	0.13kg

Example: EN-JQ50AR-BK-C

220-240V AC 50/60Hz Electronic Transformer (already included).

T-BARCLIP

Model	Finish		Weight
	Chrome		
T-BARCLIP	.	.	0.18kg

Example: T-BARCLIP

Fix the track to the T-bar ceiling. Use two for every 600mm or 1200mm, and three for every 1800mm or 2400mm.

SK14

Model	Finish		Weight
	BK	WT	
SK14	.	.	0.06kg

Example: SK14-BK

In the case of a sloping ceiling, use in conjunction with hanging accessories.

J-LOOP

Model	Finish		Weight
	BK	WT	
J-LOOP	.	.	0.05kg

Example: J-LOOP-BK-C

Can hang objects weighing up to 16kg and can be used for conductive connections.

J Series One-Circuit Track System

Surface Mounted Tracks

WAC

CP

Model	Finish	Weight
	BK WT	
CP	.	0.13kg

Example: CP-BK

Used to block the 100mm standard junction box and can be connected to accessories such as JLE, JL-LEFT, JL-RIGHT, JFLX, JT, JX, JI-PWR, etc.

SK12

Model	Finish	Weight	Length(mm)
	BK WT		
SK12	.	0.30kg	345mm
SK36	.	0.55kg	955mm
SK48	.	0.59kg	1260mm

Example: SK12-WT-C

The suspension rod accessory set includes track clamps, suspension rods, and ceiling panels. The ceiling tray is installed and covers the junction box, and the wires can be passed through the suspension rod.

TBKT

Model	Finish	Weight
	BK WT	
TBKT	.	0.44kg

Example: TBKT-BK

Used to support tracks and lighting fixtures from the wall, with the track located 600mm away from the wall. Use 2 for every 1200mm long track and 3 for every 2400mm long track.

XI

Model	Finish	Weight
	BK WT	
XI	.	0.02kg

Example: XI-BK

Extension rod connection accessory, connecting two sections of lamp extension suspension rods.

X6

Model	Finish	Weight	Length(mm)
	BK WT		
X6	.	0.03kg	152mm
X12	.	0.07kg	305mm
X18	.	0.10kg	457mm
X24	.	0.13kg	610mm
X36	.	0.19kg	910mm
X48	.	0.27kg	1220mm

Example: X6-BK

For extending low-voltage track spotlights, customize product models with already connected extension rods.
